## **PRESIDENT'S ADDRESS ON THE FOURTH INTERNATIONAL RESEARCH PROGRAM OF IAEG**

Dear IAEG community,

The IAEG is pleased to announce the start of the 4<sup>th</sup> International Research Program of IAEG (IRP), with the theme **Engineering Geology and Sustainable Development**.

We have very high expectations for IRP on the promotion in research and practice of Engineering Geology and the Environment.

We are looking forward for innovative proposals and cross-regional co-operations, recommended and involved by IAEG commissions. Please note that it is very important to highlight the engineering geological components within the proposals.

Yours Sincerely,

Vassilis P. Marinos  
President of the IAEG
